

Chuckery Primary School

Spring Term Newsletter 2025 Year 1

Read on to find out:

- Our proud moments of the spring term
- What we have been learning during the spring term
- What we will be doing in the summer term
- Key dates for the summer term

What we have done this term that made us feel proud.

The children were very excited to learn about the United Kingdom at the start of Spring Term. They looked at the four different countries in the UK and looked closely at our capital city – London! The children were very proud of their bridges they made in partners during this mini-adventure!

The children have really persevered in forest school. They have learnt lots of skills, from tying knots, to threading and even some gardening skills! The children have loved planting their very own seeds in the Chuckery garden. They were very sensible and worked in pairs to use different tools in forest school.

The children were very enthusiastic in their RE mini-adventure 'How do we celebrate?'. Every child was excited to share about the celebrations in their religions and cultures.

What we have been learning about this term

This term we have done lots of learning. They learnt lots about the different seasons we have in the UK and the weather that it brings. They used our new science knowledge to help write some very informative reports about the seasons. They tried very hard to use lots of conjunctions in their writing.

The children really enjoyed exploring the local community to see if the area helps the bees. They went on a walk around the community trying to spot flowers. They were able to name lots of different wild and garden plants!

The children were very excited to compare different types of transport. They looked at old and new cars, old and new trains and the transport people used before cars and trains! The children then made some fantastic buses in DT.

What we will be learning about in the summer term.

Our Topics mini adventures in the summer term will be:

Please see below the focus of learning in each area of the curriculum.

English (Reading and writing):

Can a salad be a work of art? (narrative)

What can we see on safari? (recount)
